*"Education is not only the right but the duty of every individual, male and female.
The best gift from a father to his child is education and upbringing"*

MESSAGE FROM CHAIRPERSON

Chairperson
Prof (Dr). Md Abdul Ilah MSc PhD
Ex Director , Shridhar University Rajasthan
and Prof. Omu, Libya North Africa

The twenty first century undoubtedly belongs to the men and women of strength and excellence in professional fields. Globalization is rapidly increasing, bringing with it expanded personal mobility; access to knowledge across borders; increased demand for higher education, and increased needs continuing education.

I firmly believe that freedom of individual development is the basis of democracy. The Education, one of the human resource development strategies, is a powerful tool for peaceful social transformation and for overall development and prosperity of any society. It should be free from shackles of ignorance, prejudice and unfounded belief. Education is an important index of human development. Deeply inspired by my mother to contribute towards the progress and prosperity of the coming generations, the Diatom National Academy a unique educational institute of its kind, has been established at Pulinda, Dist. Murshidabad WB to nurture and cultivate young minds in the pursuit of knowledge. Committed to excellence, we seek to educate our students to be responsible, forward looking and creative citizens of the world.

Our goal is to make our students global citizens on completion of their higher education capable of establishing themselves in any part of the world to lead a happy & prosperous life.

May God be with us in all our endeavours. I wish all students of Diatom National Academy to achieve best of their successful career and their endeavour.

MESSAGE FROM PRESIDENT

President
Dr. Akhtaruzzaman MBBS, Cal .MS. Allg.
Associate Prof Jalpaiguri Medical
College and Hospital

English is an international language which is immensely important in this era of globalization.

The acquisition of proficiency in this language is a must nowadays. In obtaining good, lucrative and prestigious job in Government as well as in private sectors, it also helps in making effective contact with the outer worlds, specially the technically advanced western nations.

Unemployment problem among the village youth are mainly due to their weakness in English and in mathematics. If they are made strong at these two subjects at their early age, then undoubtedly it will produce tremendous impacts on their future career. So, English medium schools are urgent needs in village level. The establishment of Diatom National Academy (DNA) is a modest beginning towards that ends.

I do believe, this DNA will play an effective role in shaping the characters of the tiny kids by the eminent faculties who are all famous in their respective fields and in making the kids a good, productive and responsible citizen of the country.

I wish the DNA a grand success for its future endeavour.

MESSAGE FROM VICE PRESIDENT

Vice President
Prof.(Dr) Jamil akhtar MSc, Ph D
Sr. Scientist, Ex Director CEERI Pilani Rajasthan India

Life with education and without education classifies the creations on earth. Human being is the only creation related to education. It is a continuous learning process in all existing domains on earth. And this makes human beings unique among all creations. Diatom National Academy is an outcome of decades old dedication of its peers in the field of academics and research. Division of subjects has been a concept to make ease in understanding and their implementation in the welfare of life on earth. Today level of understanding and available resources demands interdisciplinary approach from the very beginning in the educational system. DNA is committed to impart education from level zero and onwards to students to make them aware and competent enough to meet the challenges of the immediate future. DNA has adopted NEP 2020 policy as its top priority for its active role in the nation building. I congratulate the peers and stakeholders of the DNA for their initiative and wish all the best to achieve designated success with stability and sustainability.

Jai Hind

Secretary
Dr. Sabia Bano, B.Ed, MSc, PhD

ABOUT US

The diatom National Academy Emerges as an ideal English medium school to impart quality education under the guidance of internationally reputed eminent scientist and educationist. They believe that education at school level must be in coalition with futuristic career building plan and disciplines. Students must get strong mathematical and language background right in the primary level education, so that students themselves could quickly adopt respective field of careers based on their choices. The class room are equipped with modern tools and technology for better understanding the lessons to be taught by expert educators. The DNA is situated at pulinda, in the district of Murshidabad west Bengal and only 3 KM deep into the east of Sargachhi or 34 National Highway. This village is historically very rich and renowned. The population size of the village is around 16000. The male and female literacy is 88 and 64 percent respectively.

OUR VISIONS

The diatom National academy (DNA) will play a pivotal role to transform the dreams of students into reality. The DNA shall be committed to create opportunities for all levels of students for shaping their careers and to help them to evolve across the world right from the school. Moreover The diatom Academy will play a leading role for developing measured attitudes, disciplines, ethics and moral values into the students. The DNA will protect the values of all religions, casts and colour of the students to bring harmony, prosperity and integrity in the society and country at large.
